## Serviceable Friends

Household furnishings and equipment may be divided into two groups of friends; ornamental and serviceable.

It is difficult to find an electrical appliance that is not ornamental; it is impossible to find one that is not serviceable.

Consider the wide range of usefulness of the few members of the electrical cohort illustrated here.

Washing, ironing, cleaning, cooking, toasting,---all intimate household tasks performed with marvelous speed, economy and thoroughness.

You can use every appliance shown, to the degree found necessary in most homes at a combined cost which averages less than fifty cents weekly for current.

We shall appreciate an opportunity to tell you more about the low cost of these household friends and the wonderful service they can render.
